Welcome to
BLAST Ultimate Wi-Fi
Maximize Your
Wireless
Connectivity with
**Whole Home
Wi-Fi** from MMU

It's Wi-Fi Unleashed!
Safe, fast, reliable Internet service
that covers your whole home.

CommandIQ™ gives you an instant snapshot of your home or small business network. Through the app you can view all the connected devices on your network, set up parental controls or a guest network, run speed tests, change your SSID and password, and more. **CommandIQ** puts you in charge!

ProtectIQ™ provides protection against viruses, malware, and malicious websites, keeping your network and devices safe from cyberattacks.

ExperienceIQ™ provides you with the tools needed to enforce the Internet rules you've established for your home. Set up profiles for your children or devices, filter content, websites, and applications, and set appropriate time limits.

Welcome to **BLAST** Ultimate Wi-Fi

Everything you want in Wi-Fi.

What is BLAST Ultimate Managed Wi-Fi?

It's Wi-Fi Unleashed! Safe, fast, reliable Internet service that covers your whole home. Managed all from the palm of your hand with the **CommandIQ** app and powered by the **Manning MUNICIPAL UTILITIES** BLAST, with Wi-Fi 6.

What is Wi-Fi 6? *It's the most advanced Wi-Fi standard that's faster and optimized for performance in today's busy smart home environments.*

Why does my current Wi-Fi have problems?

There are several key factors that impact your internet and Wi-Fi performance:

- **An old router with outdated firmware** can be a primary cause of speed and performance issues. With **MMU's** managed service, we make sure you have the latest technology and that it stays updated with the latest firmware and security.
- **The placement of your old router** could be causing problems as well. We'll make sure your new Wi-Fi system is ideally located to ensure seamless wall-to-wall coverage.
- **Weak signals from inexpensive Wi-Fi solutions** can cause significant coverage problems.

MMU's new BLAST system ensures a consistently strong signal throughout your home and business.

With Advanced Managed Wi-Fi service, your family can say goodbye to dead spots.
