

# SWITCH MAKES CENTS

## LOAD MANAGEMENT PROGRAM

The load management Switch Makes Cents program has been available to Manning Municipal Utility customers since 1985. The program offers savings each year on electric heating, cooling and water heating costs. We offer a special load management electric credit of \$3 a month to all customers that are a part of the Switch Makes Cents program.

Switch Makes Cents participants agree to have radio-controlled switches installed on qualifying equipment. You save money because special rates or credits are available on all equipment connected to the switch. When electric demand peaks, the switches cycle the equipment off and on to reduce the electric peak, thus helping decrease electric costs. The equipment automatically returns to normal operation when the cooperative's electric demand returns to normal levels. Most Switch Makes Cent participants agree that comfort levels are maintained in the home even when the equipment is switched off periodically during high demand peaks.

With a credit meter, Manning Municipal Utilities offers an additional discount of \$0.015/kWh of usage in electric heating, air conditioning, air-source heat pumps, ground-source heat pumps and water heating.

Contact Manning Municipal Utilities at 712-655-3905 for more details on "Switch Makes Cents" and credit meters.
